Book reviews

Note: Department edited by Robert Heinich. Reviewer's name is cited last in italics.

Behavioral research

Experimenter effects in behavioral research, Robert Rosenthal, *Charles F. Hoban, 1* 96-100

Life in classrooms, Philip W. Jackson, *Charles F. Hoban, 2* 210-14

Pygmalion in the classroom: Teacher expectation and pupils' intellectual development, Robert Rosenthal and Lenore Jacobson, *Charles F. Hoban, 1* 96-100

The social nature of psychological research: The psychological experiment as a social interaction, Neil Friedman, *Charles F. Hoban, 1* 96-100

Visual anthropology: Photography as a research method, John Collier, Jr., *David W. Martin, 1* 104-05

The way teaching is: Report of the seminar on teaching, NEA, 1966, *Charles F. Hoban, 2* 210-14

Computer-assisted instruction

Computer-assisted instruction: A survey of the literature (third edition), Albert E. Hickey, *Carl E. Helm, 3* 335-38

(**Book reviews,** cont'd.)
Index to computer assisted instruction, Helen Lekan, ed., *James Russell, A. Thiagarajan, and Arthur Babick, 3* 338-39
Correspondence instruction
Correspondence instruction in the United States, Ossian MacKenzie, Edward L. Christiansen, and Paul H. Rigby, *Henry A. Bern, 4* 440-47
Film
Cinema world series, Penelope Houston, Tom Milne, and Peter Wollen, eds., *Lee R. Bobker, 2* 230-31
The parade's gone by, Kevin Brownlow, *Robert Steele, 4* 460-61
Higher education
New media and college teaching, James W. Thornton, Jr., and James W. Brown, eds., *John B. Haney, 4* 435-39
The teaching-learning paradox: A comparative analysis of college teaching, Robert Dubin and Thomas C. Taveggia, *John B. Haney, 4* 435-39
Information services
Developments in national document and information services, H. C. Campbell, ed., *Donald P. Hammer, 4* 458-60
The information machine, Robert E. Elder, *Herbert I. Schiller, 3* 331-33
Language behavior
Developments in applied psycholinguistics research, Sheldon Rosenberg and James H. Koplin, eds., *Gary D. Borich, 4* 447-52
Instructional design (*also see* Teaching technology)
Instruction by design: A report on the conference on new instructional materials in physics held at the University of Washington, summer, 1965, *Casper F. Paulson, Jr., and Jack V. Edling, 1* 109-10
Instructional media: A procedure for the design of multimedia instruction, a critical review of research, and suggestions for future research, Leslie J. Briggs, Peggie L. Campeau, Robert M. Gagné, and Mark A. May, eds., *Jack V. Edling, 1* 105-07
Planning for effective utilization of technology in education: Reports prepared for a national conference, Edgar L. Morphet and David L. Jesser, eds., *Delayne Hudspeth, 1* 110-12
Run, computer, run: A mythology of educational innovation, Anthony G. Oettinger, *Norman D. Kurland, 4* 452-54
Sequencing of instruction in relation to hierarchies of competence, Leslie J. Briggs, *Casper F. Paulson, Jr., 1* 107-09
Mass media
Censorship of the movies: The social and political control of a mass medium, Richard S. Randall, *Robert Steele, 1* 112-14
Problems and controversy in television and radio, Henry J. Skornia and Jack Will Kitson, eds., *James A. Anderson, 2* 226-28
Politics and education
ESEA: The Office of Education administers a law, Stephen K. Bailey and Edith K. Mosher, *Everett M. Rogers, 2* 218-20
The new Brahmins: Scientific life in America, Spencer Klaw, *Thomas Clemens, 2* 220-26
The politics of federal aid to education in 1965: A study in political innovation, Philip Meranto, *Everett M. Rogers, 2* 218-20
The politics of pure science, Daniel S. Greenberg, *Thomas Clemens, 2* 220-26
Teaching technology
Educational media: Theory into practice, Raymond V. Wiman and Wesley C. Meierhenry, eds., *S. G. Swartout, 4* 455-58
The teacher and the machine, Philip W. Jackson, *Phil C. Lange, 1* 100-04
The technology of teaching, B. F. Skinner, *Donald D. Jensen, 3* 333-35
Working with individualized instruction: The Duluth experience, Thorwald Esbensen, *Hugh F. McKeegan, 2* 215-18
Visual communication
The machine, K. G. Pontus Hulten, *Vincent Lanier, 3* 327-28
The world of Henri Cartier-Bresson,

(**Book reviews,** cont'd.)
Henri Cartier-Bresson, *Robert C. Snider,* 2 228-30
World education
The world education crisis, Philip H. Coombs, *John A. Carpenter,* 3 328-31
Borich, Gary D., book review, 4 447-52
Bray, Robert M. *See* Croft, Roger G., *et al.*
Breglio, Vincent J. *See* Croft, Roger G., *et al.*
Briefly Noted, Robert Heinich, 1 114-15, 3 340-42, 4 464-66
Briggs, Leslie J., Sequencing of instruction in relation to hierarchies of competence, book reviewed, 1 107-09
Briggs, Leslie J., Peggie L. Campeau, Robert M. Gagné, and Mark A. May, eds., Instructional media: A procedure for the design of multimedia instruction, a critical review of research, and suggestions for future research, book reviewed, 1 105-07
Brown, James W., ed. *See* Thornton, James W., Jr.

Computer-assisted instruction
Changes in young children's classroom behavior after a year of computer-assisted instruction: An exploratory study. Research memorandum, Pauline S. Sears and David H. Feldman, *3* 348-49
A comparison of several feedback methods for correcting errors by computer-assisted instruction, David Alan Gilman, *3* 350
Computer-assisted explanation. A guide to explaining: And some ways of using a computer to assist in clear explanation, Edmund C. Berkeley, *3* 349
Computer-based instruction: Psychological aspects and systems conception of instruction, Lawrence M. Stolurow, *3* 350-51
Computer science instruction in elementary grades, an exploration of computer-based learning methods. Final report, John A. Starkweather, *2* 239
The effects of task characteristics on response latency and latency trends during learning and overlearning, Wilson A. Judd, *2* 237

(**Research abstracts,** cont'd.)
Program in computer-assisted instruction. Final report, Richard C. Atkinson and Patrick Suppes, *4* 470
Scrambled versus ordered sequencing in computer-assisted instruction, Kenneth H. Wodtke, Bobby R. Brown, Harold R. Sands, and Patricia Fredericks, *1* 120
U.S. Office of Education support of computer activities, Andrew R. Molnar and Beverly Sherman, *4* 468
Films (*also see* Television *and* Broadcasting)
Audio implementation of still and motion pictures. Final report, William H. Allen, Stuart M. Cooney, and Royd Weintraub, *2* 234-35
The effects on learning from a motion picture film of selective changes in sound track loudness level. Final report, Francis X. Moakley, *1* 123
An experimental study of the relationship of film movement and emotional response, and its effect on learning and attitude formation, William Charles Miller, III, *1* 117
An exploratory analysis of projection-standard variables (screen size, image size, and image contrast) in terms of their effects on the speed and accuracy of discrimination. Final report, Richard M. Metcalf, *2* 232-33
Individual differences and instructional film repetitions. I: Exploration of aptitude-learning correlations, Richard E. Snow, Warren F. Siebert, and Robert W. Heckman, *2* 235
Learner response, feedback, and review in film presentation. Final report, William H. Allen, Royd Weintraub, and Stuart M. Cooney, *1* 122
Motion pictures and real-life violence; what the research says, Wilbur Schramm, *4* 465
Form perception
An exploratory study of form perception as applied to the production of educational media. Final report, William H. Allen and William A. Daehling, *4* 469
The shift from color to form preference in young children of different ethnic backgrounds, part of the final report, Charles Mac Spellmann, *3* 343-44
Lecture presentation
Validation of a criterion of lecture effectiveness. Research memorandum, W. P. Gorth, D. W. Allen, L. W. Popejoy, and T. W. Stroud, *2* 233
Message design
Message design: The temporal dimension of message structure. Final report, Malcolm L. Fleming and others, *3* 345
Multimedia
Analysis and evaluation of present and future multi-media needs in higher education. Final report, Christopher L. Faegre and others, *3* 348
The development and testing of a polysensory instructional system for teaching knowledges and skills associated with the use of expandable polystyrene plastics, Dale Leroy Nish, *1* 126
European research in audio-visual aids. Part I, bibliography, J. A. Harrison, ed., *2* 236
European research in audio-visual aids. Part II, abstracts, J. A. Harrison, ed., *2* 236
Multisensory communications (*also see* Programed instruction)
Cue summation in multiple-channel communication. Report from the media and concept learning project, Werner Severin, *2* 233-34
Immediate audio and visual confirmation; "breakthrough" for the low-aptitude language student, Theodore H. Mueller, *4* 464-65
Studies in cine-psychometry II—continued factoring of audio and visual cognition and memory. Final report, Warren F. Seibert and Christopher J. Reid, *1* 119

(**Research abstracts,** cont'd.)
The use of individualized multisensory materials to develop a basic sight vocabulary, Frances N. Crawford, *1* 124
Programed instruction
The effect of tangible reinforcement on the learning and retention of programmed material in academically retarded children, Vaughn E. Stimbert, James R. Frazier, Harold R. Keller, and F. J. King, *3* 352
The effectiveness of the use of programmed analyses of musical works on students' perception of form. Final report, Carl B. Nelson, *2* 240
The effects of certain response characteristics in programed instruction on errors, rate of learning, and retention, Kenneth D. Orton, *2* 238-39
The effects of prompting in programed instruction as a function of motivation and instruction, Gerald W. Faust, *3* 352
An experimental design for comparing the effects of instructional media programing procedures: Subjective vs. objective revision procedures. Final report, Marvin J. Rosen, *4* 468-69
Group use and other aspects of programmed intruction. Final report, Robert L. Crist, *4* 466-67
The relationship of learner characteristics to media stimuli and programing sequences, Robert T. Filep, *1* 121
The role of personality and attitude variables in programmed instruction. Final report, Keith G. Davis and James H. Banning, *3* 351-52
Sequencing of instruction in relation to hierarchies of competence, Leslie J. Briggs, *1* 116
Studies on individual differences related to performance on programed instruction, Arnold Bond Woodruff and Shinkichi Shimabukuro, *2* 237-38
Visual and audio presentation in machine programed instruction. Final report, William H. Allen, *1* 118-19
What determines what the student learns? Stuart Margulies and Kathleen Speeth, *2* 235
Systems (*also see* Multimedia)
Cost study of educational media systems and their equipment components:
Volume I, Guidelines for determining costs of media systems. Final report, General Learning Corp., *3* 346
Volume II, Technical report. Final report, *3* 346-47
Volume III, A supplementary report: computer assisted instruction. Final report, *3* 347
The effects of various rates of presentation in combination with massed and spaced, concurrent and non-concurrent practice modes on film-mediated perceptual motor performance, Margaret A. Montgomery, *3* 346
An information and management system for individually prescribed instruction. Working paper 44, William W. Cooley and Robert Glaser, *4* 467
Innovation in education: New directions for the American school. A statement on national policy, Committee for Economic Development, *3* 347-48
Technology of instruction (*also see* Multimedia)
Aptitudes and instructional media. Project on individual differences in learning ability as a function of instructional variables, technical report number 3, Richard E. Snow and Gavriel Salomon, *3* 345-46
Communication events: A new look at classroom interactions. Russell L. French and Charles M. Galloway, *4* 469-70.
Comparing the effectiveness of two methods of teaching agricultural science to students in vocational agriculture, Twyman G. Williams, Jr., *1* 127-28
The effects of shifting medium of expression on the use of concepts among children, Donald Ross Green and Nancy E. Wilder, *3* 343

(**Research abstracts,** cont'd.)
Evaluating the efficiency and effectiveness of self-instructional methods for selecting areas of vocational education. Final report, John L. Coffey and others, *1* 125-26
Media and the learning process, Robert M. Gagné, *3* 351
Planning and construction of a university course in educational technology, Bo Eriksson, *2* 236-37
Report on understanding new media, Marshall McLuhan, *1* 121
Simulation games in learning, Sarane S. Boocock and E. O. Schild, eds., *4* 465
Television (*also see* Films *and* Visual communications)
An experimental study utilizing closed circuit television in the teaching of dental techniques, Arthur H. Morrison, *1* 127
Learning from television, what the research says, Godwin C. Chu and Wilbur Schramm, *1* 117-18
The Peace Corps educational television (ETV) project in Colombia—two years of research. Overview of research reports no. 1-10, George Comstock and Nathan Maccoby, *1* 123
Programming visual presentations for procedural learning. Studies in televised instruction. Final report, George L. Gropper, *2* 238
